Vission

Clavicle Splint

Position with comfort

Our Vission Clavicle Splint offers comfortable support to the injured or post-operative clavicle. The splint can also be used to improve posture.

- Extra padding where straps join at center back
- Fabric integrated D-rings eliminate strap twisting
- Figure 8 design
- Step down a size to limit patient adjustment
- Soft foam laminated material

Measurement Patient Type	size	catalog number
children	S	202130
youth/small adults	M	202140
adults	L	202150
large adults	XL	202160

Vission

Mesh Contoured Sling

A fresh new look

Our Vission Mesh Contoured Sling provides comfortable support to the affected arm/shoulder to promote healing. The contoured seams of the open mesh provide superior anatomical fit.

- Optimum breathability
- Unique anatomical contour prevents the arm from sliding in the sling
- Soft plush thumb loop
- Mesh fabric adds a flair of fashion

one size U 310390

Vission

Shoulder Stabilizer

Comfortable stabilization

The Vission Shoulder Stabilizer is designed to restrict movement in and around the shoulder by securing the humerus and the forearm in a position to reduce abduction and arm rotation.

- Plush, comfortable, hook compatible CSUS laminated fabric
- Variable position shoulder strap
- Easy to attach humeral and forearm cuffs to thoracic band

Measurement torso circumference including arm size catalog number

53" wrap length S/M 315330
61" wrap length L/XL 315340

Vission

Sling and Swathe

Protective support

Our Vission Sling and Swathe provides maximum support to the affected arm/shoulder to promote healing. Removable padded swathe secures the affected arm against the body.

- Protective foam laminate construction
- Dual straps for balanced support
- Comfortably supports the arm/shoulder with foam pads
- Padded swathe secures the affected arm against the body

*NOTE: If greater circumference swathe is required, ask about our item #201300 EXTENDER!

Vission

EPI Tennis Elbow

Get back in the game

Our Vission EPI Tennis Elbow offers adjustable pressure over affected tissue to help relieve pain/discomfort associated with Epicondylitis.

- Proprietary memory foam laminate for ultimate patient comfort
- Adjustable compression on the extensor and flexor muscles
- Two repositionable/modular foam pads
- Combine with a CSUS wrist brace for additional control

measurement: circumference at 2" below elbow	size	catalog number
8" - 11"	S/M	315130
12" +	L/XL	315140

M2

Sling with Abduction Pillow

Shoulder positioner with exercise ball

Our M2 Sling with Abduction Pillow transfers the weight of the forearm to the patient's back and to the unaffected shoulder while abducting the arm away from the body at about 10-15 degrees for shoulder rehabilitation.

- Cradles the arm in desired position
- Contoured abduction pillow
- Exercise ball stimulates circulation
- Adjustable shoulder strap pad
- Fits left or right arm

Measurement length from elbow to wrist	size	catalog number

Vission

Wrist Strapped 6" and 8"

Anatomically contoured to "fit like a glove"

Our Vission Wrist Strapped 6" or 8" provides firm and comfortable support. Both are anatomically contoured to hold the wrist in a functional position to promote healing.

- Memory foam laminate for ultimate patient comfort
- Anatomically contoured for superior fit
- Malleable aluminum stays for customized fit
- Easy to locate contrasting color D-rings
- Contoured, adjustable thumb web strap
- Integrated cotton knit panel for ease of application

Hand/Wrist

Vission

Universal Thumb Splint

Patterned to offer the perfect fit

Our Vission Thumb Splint is patterned to fit the anatomy of either the right or left hand comfortably. The brace stabilizes the CMC and MP joints of the thumb to promote healing.

- Proprietary memory foam laminate
- Fabric integrated D-rings eliminate twisting
- Easily shaped 1st MCP stay achieves desired positioning
- Anatomically contoured fit for stabilization
- Easy to locate contrasting color D-rings

measurement:	size	catalog number
one size	U	300990

Vission

Denite Lumbar Support

A stylish support they'll want to wear

Our Vission Denite Lumbar Support offers intracavitary pressure to reduce strain on the lower back. Stretch denim fabric, bold curved stitching, and a clever front pocket offer a whole new dimension to back supports!

- Fresh updated look
- Wide criss-cross elastic back straps for added stability
- Use for mild lower back pain and muscle weakness

LSO Short

360° circumferential compression

Our Vision LSO Short combines rigid anterior and posterior panels by applying 360° of circumferential compression. By lifting the abdominal muscles, the brace supports and relieves stress on the lumbar spine.

- Firm compressive stabilization
- Finger loops on anterior panels for easy closure
- Wide elastic cinch straps easily adjust to provide required compression and snug posterior panel to spine
- Comfortable CSUS laminated fabric
- Lightweight ergonomic stays retain brace shape
- Heat moldable back panel

Vission

LSO Tall

360° circumferential compression

Our Vision LSO Tall combines rigid anterior and posterior panels by applying 360° of circumferential compression. By lifting the abdominal muscles, the brace supports and relieves stress on the lumbar spine. Excellent option for tall patients.

- Dual overlapping anterior panels for adjustable fit
- Firm compressive stabilization
- Integrated rigid anterior and removable rigid posterior panels
- Finger loops on anterior panels for easy closure
- Wide elastic cinch straps easily adjust to provide required compression and snug posterior panel to spine
- Comfortable CSUS laminated fabric
- Lightweight ergonomic stays retain brace shape
- Heat moldable back panel

Vission

LSO+

Sizes available to fit up to 68 ½" hip!

The Vission LSO+ is now available to offer sagittal & coronal support in a lightweight, breathable back support. The back panel self molds to the anatomy forming an intimate fit. Combination of rigid front, side and back panels restricts lateral movement.

- All the benefits of our LSO Short with added sagittal & coronal support panels
- Combine with our Extender to 'grow' orthosis 1-2 sizes larger

**3D-LITE****LSO Xtra Spinal Orthosis***Heat moldable low temperature thermoplastic posterior panel*

Our LSO Xtra combines a posterior 3D-LITE low temperature thermoplastic panel with a supportive elastic back support, providing intracavitary pressure to reduce load on the intervertebral discs. Simply heat for intimate fit.

- Large 3D-LITE low temperature thermoplastic posterior panel molds to the contours of the back and extends laterally to conform to the sides for rigid frontal and transverse plane stabilization
- Lightweight and breathable 3D-LITE posterior panel molds in minutes with heat gun, in oven at 160°F, or by submersion in 160°F water
- Rigid anterior panels, as well as the posterior panel, are easily removed as healing progresses
- Finger loops on anterior panels for easy closure
- Wide elastic cinch straps easily adjust to provide desired compression and snug posterior panel to spine

M2**3-Point Hyperextension Brace***Rigid hyperextension control*

Our M2 Hyperextension Brace provides tri-planar stabilization in a light weight easy to apply and adjust orthosis.

- Tri-planar control
- Adjustable height
- Spring loaded pelvic band reduces upward migration when sitting
- Easy to use ratchet adjusts tension for back panel

Vission

ROM Adj Thigh Knee Support

A simple solution for asymmetrical leg anatomy

Our Vission ROM Adj Thigh Knee Support combines range of motion control with medial/lateral stability and compressive support for mild to moderate knee instabilities. The adjustable thigh section easily accommodates edema or asymmetric leg anatomy.

- Snap-in flexion and extension stops included - No tools required
- Wrap-around straps secure uprights/hinges in position and minimize migration
- Perforated, breathable, skin-friendly neoprene with polycentric hinges
- Pressure relieving, stabilizing, patella-shaped silicone buttress
- Soft popliteal knit prevents "bunching"
- Pre-flexed design for anatomically contoured fit, also reduces migration

Measurement: knee circumference	size	catalog number

Vission

ROM Wrap-Style Knee Support

Ideal for post-surgical applications

Our Vission ROM Wrap Knee Support combines range of motion control with medial/lateral stability and compressive support for mild to moderate knee instabilities.

- Wrap-around style is ideal for post-surgical applications
- Snap-in flexion and extension stops included - No tools required
- Perforated, breathable, skin-friendly neoprene with polycentric hinges
- Soft popliteal knit prevents "bunching"
- Wrap-around straps secure uprights/hinges in position and minimize migration
- Pre-flexed design for anatomically contoured fit, also reduces migration
- Accommodates asymmetrical anatomy or edema

Vission

Hinged Knee Support

Management for mild knee instability

Our Vision Hinged Knee Support combines wrap-around straps, medial/lateral hinges and compressive support for management of mild knee instability.

- Wrap-around straps secure uprights/hinges in position and minimize migration
- Soft popliteal knit prevents "bunching"
- Perforated, breathable skin-friendly neoprene with polycentric hinges
- Pre-flexed design for anatomically contoured fit, also reduces migration
- Pressure relieving, stabilizing patella shaped silicone buttress

Vission

Spring Stay Knee Support

Secure and comfortable fit

Our Vission Spring Stay Knee Support offers firm compression and medial/lateral support for management of mild knee instability.

- Medial/lateral spring stays
- Soft popliteal knit prevents “bunching”
- Perforated, breathable skin-friendly neoprene
- Innovative patella-shaped silicone buttress
- Pre-flexed design for anatomically contoured fit, also reduces migration

A functional and comfortable solution to relieve OA symptoms

Our Vission Osteoarthritis Knee Orthosis offers an adjustable non-stretch strap that utilizes a 3-point counterforce system to apply force to the unaffected side of the knee unloading the opposite affected compartment.

- 3-point fixation grasps medially and laterally for optimum off-loading force
- Transparent Counterforce Strap Guide keeps the strap in functional alignment
- Adjustable flexion/extension control
- Low profile uprights, reduce hitting opposite knee especially for bi-lateral wearers
- Sleeve is designed with a pre-flexed shape to avoid bunching up of material over popliteal area while providing contoured fit to the anatomy
- Flexible tabs on Condyle Trays conform to individual anatomy
- Anterior/posterior calf/thigh straps secure uprights for proper alignment along sides of leg and helps prevent migration
- Adjustable wrap-style thigh for ease of donning and doffing
- Soft, perforated material conforms intimately to the anatomy and makes the orthosis breathable for patient comfort

Vission

Universal Knee Immobilizer

Trim to fit circumference

Our Vission Universal Knee Immobilizer stabilizes the knee post-operatively or after injury. Fits thigh circumference from 12" to 32"

- Adjustable medial/lateral stays
- Fabric integrated D-rings eliminate twisting
- Fixed, contoured posterior stay
- Soft foam laminate material allows for trimming
- Lightweight

Vission

Patella Trac

Effective patella stabilizer

Our Vission Patella Trac utilizes dynamic straps and a crescent-shaped foam buttress to "pull" and stabilize the subluxing patella into a pain relieving anatomical position.

- Crescent-shaped patella buttress comfortably contours the patella
- Dynamic traction straps position and stabilize the patella
- Position buttress to either the medial or lateral side
- Open, pressure-free popliteal area
- Soft, comfortable lining

M2

ACL Brace

Functional support

Our low profile M2 ACL Brace with ROM control provides functional support for moderate to severe ACL, MCL, and LCL instabilities.

- Flexion (45°, 60°, 75°, 90°) and extension (0°, 10°, 20°, 30°, 40°) stops
- Sleek, low profile design
- Migration resistant strapping
- Durable, lightweight aluminum construction

Vission

Walker Clamshell Standard Tall

Circumferential compression without the weight

Our Vission Walker Clamshell Standard Tall is a unique clamshell design that offers circumferential compressive support and immobilization with a contoured-for-comfort liner.

- Rocker bottom with ample tread for more natural ambulation
- Extra heel width provides more surface contact and better stability
- Padded insole for better shock absorption
- Seamless foot liner for comfort
- Semi-rigid anterior and posterior panels accommodate anatomy
- Breathable, moisture wicking, contoured-for-comfort liner
- Steel reinforced rocker bottom

Forge

Walker Air Tall and Short

Integrated pneumatic air system

Our Forge Walker Air Tall and Short offer an integrated pneumatic single bladder air system combined with circumferential compressive support and immobilization with a contoured-for-comfort liner.

- Integrated single pneumatic bladder
- Rocker bottom with ample tread for more natural ambulation
- Extra heel width provides more surface contact and better stability
- Padded insole for better shock absorption
- Seamless foot liner for comfort
- Breathable, moisture wicking, contoured-for-comfort liner
- Steel reinforced rocker bottom

Night Splint Standard

Nighttime treatment

Our M2 Night Splint Standard helps stretch the plantar fascia with adjustable bilateral dorsiflexion straps. Nighttime wear reduces the daytime pain associated with Plantar Fasciitis, Achilles Tendonitis, and other foot and ankle conditions.

- Gentle stretch for Achilles Tendon and Plantar Fascia
- Metatarsal wedge maximizes dorsiflexion stretch
- Adjustable, bilateral dorsiflexion straps
- Slip resistant sole
- Fits right or left foot

Ankle Laced Figure 8

Stability and comfort

Our M2 Ankle Laced Figure 8 offers firm compressive support to help stabilize a weakened or injured ankle. Figure 8 strap replicates ankle taping. Durable construction and fabric resists wear and tear.

- Wide elastic cuff provides circumferential compression
- Oversized eyelets allow quick lace-up
- Design accommodates anatomical contours
- Cushioned achilles relief
- Convenient finger pulls on strap ends
- Fits right or left foot

Be aware that the brace may alter the patient's abilities for some activities, i.e. driving a car. Review the Instructions For Use supplied with the product with patient and provide them with a copy. Point out where discussed in IFU and remind the patient the importance of routine checking of orthosis for any signs of damage.

Product Warranty

Allard USA obligation under this warranty, is limited to the replacement or repair of any defective part or parts of a CSUS product within 30 days of fit. Normal wear and tear during the usage of a product is not considered a defect. It does not cover damage by tools, application of heat, or excessive bending/flexing of brace.

Patient Satisfaction Guarantee

If the wearer is not totally satisfied with the product initially fitted within 10 days, Allard USA will at the provider's discretion, provide a FREE alternative product for the wearer to try, or issue full invoice cost credit.

Return Policy

If you have purchased the CSUS product from Allard USA:

To help us serve you better and assure you receive appropriate credit, please call toll free 888-678-6548 to receive a Return Authorization (RA) number prior to shipping the return.

If you have purchased the CSUS product from a distributor:

Please contact that distributor to obtain a Return Authorization.

If you have purchased the CSUS product from any company other than Allard USA:

Please contact that company to obtain a Return Authorization

Delivery Times

It is our goal to ship all orders received by 4:00pm, same day. If for any reason we are unable to meet that goal, you will be contacted.

Terms

There is no minimum order. There is a \$6.00 handling charge per order.

Payment terms are net 30 days. Overdue invoices are subject to a charge of 1.5% of the unpaid balance or .50% per month, whichever is greater.
