every TIBIA is different!

SoftKIT™ is the standard version. Soft foam in 3mm. BLACK.

SoftKIT™ is the standard version. Soft foam in 3mm. BEIGE.

ComfortKIT™ is the deluxe version of SoftKIT with 5mm memory foam. Interface of choice for patients with skin sensitivity and diabetic patients. BLACK with gray binding.

GliderKIT™ forms a sling that moves with the tibia. Recommended for high activity level patients, such as marathoners or cyclists. BLACK.

CoverKIT™ uniquely combines a soft interface with a spandex sleeve to cover the brace. Great solution for fashion conscious patients. BLACK.
