Thumb Spica, Laced

1. Open main straps and thumb strap as shown and slip hand into splint.

Indications / Intended Use
Sprains and strains; Scaphoid injuries; Carpal Tunnel Syndrome; Gamekeeper's Thumb; DeQuervain's Syndrome.

2. Wrap thumb strap between thumb and fingers and secure.

Contraindications
Complicated or open fractures of the wrist.

Adjustment
This splint should only be fitted by a licensed medical professional.

3. Pull laced strap closest to hand tight and wrap around wrist as shown. Secure end and trim as needed.

Warning
Do not overtighten, as this can cause poor circulation and/or skin irritation. If you feel any irritation, observe skin discoloration, or experience other problems such as excess swelling, remove splint and consult your healthcare professional. Check skin on a daily basis.

4. Repeat step 3 with remaining strap. Adjust straps as needed for a snug, comfortable fit.

Wash instruction
Hand wash in cold water using mild detergent.
Air dry.
