Universal Thumb Splint

1. Open thumb strap and pass two main straps loosely through green rings. Slide splint over affected hand, inserting thumb into keeper. Wrap thumb strap as shown.

1

Indications / Intended Use
Post-thumb fracture; Thumb intrinsic muscle injuries; Collateral ligament thumb injuries.

Contraindications
Complicated or open fractures of the thumb and/or wrist.

2. Tighten 1 inch strap snugly around hand and secure.

2

Adjustment
This splint should only be fitted by a licensed medical professional.

Warning
Do not overtighten, as this can cause poor circulation and/or skin irritation. If you feel any irritation, observe skin discoloration, or experience other problems such as excess swelling, remove splint and consult your healthcare professional. Check skin on a daily basis.

3. Tighten 2 inch strap around wrist and secure. Adjust straps as needed making certain thumb is aligned with stay.

3

Wash instruction
Hand wash in cold water using mild detergent. Air dry.

4. Trim excess thumb strap as needed.
