SELECTION Open Wrist

Selection Open Wrist is a brace that is simple to don and doff. It can be open totally flat. The integrated "wrap around" straps gives increased stability around the wrist. It has an adjustable thumb strap. The shape is cut out in the palm area which allows the hand to bend. This model is cut out around the thumb muscles to allow full movement of the thumb. It comes with a pre-shaped plastic spoon on the palmar side and a soft narrow plastic spoon on the dorsal side. It is intended to be used when the wrist needs off-loading in cases such as rheumatic disorders or after fracture healing.

Made with the airy and comfortable SELECTION material with all the functionality this incorporates.

Recommended Range Of Application
Inflammation, work related strain or when rheumatic and/or degenerative changes are present.

Contraindications
Non known.

Measurements
Wrist circumference.
