BlueROCKER® 2.0

All foot drop 2.0 Allard AFOs come with a Starter Interface Kit which includes one Starter SoftKIT™ and two Tibia Pads! You love the ToeOFF® 2.0, so upon your request, the same benefits are now in BlueROCKER® 2.0! With more gently contoured "wings", pre-attached MikroFIX™, straps with alligator tabs and D-Rings, and more, we are sure you will love our 2.0 models. BlueROCKER® is identical in shape and design as ToeOFF® but offers more rigid orthotic control. Developed primarily for bilateral foot drop patients and those with more involved pathologies. The extra stability will improve both balance and posture and give the wearer greater security, especially individuals with weak quadricep muscles. Usually the preferred orthosis to be used in conjunction with a socket and toe filler for management of partial foot amputations.

Recommended Range Of Application

Foot drop in combination with no spasticity to severe spasticity. Weakness or impairment in multiple leg muscle groups, impaired balance, limb proprioception, and partial foot amputations.

Contraindications

Severe edema, leg ulcers.

Item No.	Product Description	Size	L/R
289401010	BlueROCKER® 2.0 w/o D-Ring	X-Small	Left
