

Vission™ Patella Trac

Our Vission™ Patella Trac utilizes dynamic straps and a crescent-shaped foam buttress to “pull” and stabilize the subluxing patella into a pain relieving anatomical position.

Recommended Range Of Application

Medial or lateral patella instability, subluxation, chondromalacia, or misalignments of the patella, anterior knee pain.

Measurements

Measurement: Knee circumference

Item No.	Product Description	Size	Measurement
