# ToeOFF® 2½ Addition

ToeOFF® 2½ Addition is a version of the ToeOFF® 2½ with a different color surface. The available options are Black, Birch or Camouflage. The surface gives the product a different look and design as well as a smoother surface to allow for clothing to slide more easy over the surface. This new manufacturing method also makes it possible to extend the colored surface all the way to the junction between the strut and the sole. Addition is only available with D-ring straps. Please note that the pattern in the Beige and Camouflage option may vary between orthoses, this is important to consider when ordering for bilateral wearers.
